

AI for Operations & Supply Chain

Practical AI for process-heavy teams, with a clear line between automation that helps and automation that introduces silent risk.

WHO IT'S FOR

Operations, logistics, supply-chain and production teams.

FORMAT

In-house workshop

LENGTH

Half-day

What your team walks away with

Automate routine operational work with AI — and recognise where an AI forecast or shortcut quietly adds error, cost or risk.

Curriculum

- 01 Where AI speeds up operations — planning, documentation, forecasting, tracking
- 02 Using AI forecasts and predictions without over-trusting them
- 03 Automating routine work while keeping a human check where it matters
- 04 Spotting where an AI shortcut adds hidden error or cost
- 05 Keeping operational and partner data safe
- 06 An operations AI toolkit and human-in-the-loop checklist

You keep

An AI-for-operations toolkit and a human-in-the-loop checklist.

Arthiq — live, in-person AI training for high-stakes teams.
