

AI for Regulated Deployments: Insurance & Life Sciences

A validation-first program for teams whose AI decisions must stand up to a regulator — carried over from our regulated-industry work.

WHO IT'S FOR

Insurance (actuarial, underwriting, claims) and life-sciences (R&D, clinical, regulatory) teams.

FORMAT

In-house workshop

LENGTH

Half-day or full-day

What your team walks away with

Deploy AI in regulated workflows — underwriting, pricing, claims, discovery, trials — while keeping validation, traceability and conduct intact.

Curriculum

01 Where AI adds value in tightly regulated workflows

02 Validation: proving a model is fit before it's used

03 Traceability and documentation regulators expect

04 Fairness, conduct and consequences for real people

05 Monitoring and accountability once a system is live

06 A validation-and-traceability checklist

You keep

A validation-and-traceability checklist for regulated AI deployments.

Arthiq — live, in-person AI training for high-stakes teams.
